(36) Family of Flowers

Eid Celebration

My mother: I Love you

Eid Party

(How you spent Ramadan?)

If your mother is still around: Never Forget to Love

her more than ever.

If she isn't → Remember her unconditional love.

The Unconditional Love

1- When you were 1 year old, she fed you and bathed you.

You thanked her by crying all the night

2- When you were 2 years old, she taught you to walk.

You thanked her by running away when she called

3- When you were 3 years old, she made all your meals with love.

You thanked her by tossing your plate on the floor.

4- When you were 4 years old, she gave you some crayons.

You thanked her by coloring the dining room table

5. When you were 5 years old, she dressed you for the holidays.

You thanked her by looping into the nearest pile of mud.

6. When you were 6 years old, she walked you to the school.

You thanked her by screaming "I am not going!"

7. When you were 7 years old, she bought you a baseball.

You thanked her by throwing it through the window.

8. When you were 8 years old, she handed you an ice cream.

You thanked her by dipping it all over.

9. When you were 9 years old, she paid for arabic class.

You thanked her by never bothering to practice it.

10. When you were 10 years old, she drove you all the

day from gymnastic to one birthday party

You thanked her by jumping out of the car

and never looking back.

when you were 11 years old, she took you and your friends to the movies.

You thanked her by asking to sit in different row.

This is your mother care, Love, affection and sympathy for you. And what about your response.

I need every one of you to reflect on the above mentioned facts in order to realize the blessings of having a mother so that

① You can be thankful to Allah for that great blessing.

and ② You can enjoy that blessing all your life and always try to compensate for all your mother care through your Love- obedience and Sincerity

For this week (Good)

←  $\frac{+2}{\text{الله}}$  -  $\frac{+2}{\text{والديه}}$  -  $\frac{+1}{\text{الدين}}$  -  $\frac{+1}{\text{العلم}}$   
Self (+2) Sweet (+1)
