The secret of creation

(1)

Today insha Allah, we will learn about the rules of creation which are:

- 1- The secret of creation.
- 2- Allah has created everything in pairs
- 3- Allah has created everything according to Divine wisdom.

the first rule of creation.

the Miracle of creation

Allah The Allmighty said in Surat AL-Anam (6)

V. (95).

"Verily, it is Allah who causes the seed grain and the fruit-stone to split and sprout. He brings forth the living from the dead, and it is He who brings forth the dead from the living. Such is Allah, then how are you deluded from the truth."

The meaning:

1. This is the great miracle: the miracle of life, its initiation and its progress.

(2) 2. No one knows the secret of this miracle, nor can do it other than Allah.

In every moment the life begins in a plant, a tree, a bird, a fish, a flower, an insect, billions and billions of creations, but it (life) remains a secret, which is known only to Allah.

Regarding, our planet (earth), there was no life on it. Then the life begins after Allah originates it.

Today we will learn about:

1. The meaning of the word: creation

Creation = initiation of life and its' progress
= (beginning of life and its' progress)

2. Most of scientists admit that there is no way to explain the beginning and progress of life

except by clear acknowledgment that it's all Allah's work.

3. let's agree for:

1. The grain is dead and then it will split open

(3) to produce a shot of plants (alive).

The question is: where in the dry grain, are the roots, the sticks and the leaves of the plant hidden?

2. The Fruit stone is dead, and then it will break open to begin life of a tree (alive).

The question is: where in the Fruitstone are the roots, sticks and leaves are hidden?

3. The egg is dead and then it will break and a baby chick will come out of it (alive).

The question is: where in the egg are the bones, meat, feathers of the chick are hidden.

The answer of all these questions is a fact which every muslim needs to know and believe.

Rule: Life is a great mystery, only The Creator (Allah)

knows the secret of creation of life i.e

its initiation and its progress.

(4)

Home work: get some dry grains and put them on a piece of cotton - water them daily and bring them with you next Friday insha Allah.

Story: The bandage of thankfulness.

Once a scholar met a man with a bandage

tied around his head so he asked the man about

the reason for that bandage. "Because I have

headache" the man replied

"How old are you?" The scholar asked.

"25 years old" the man answered.

"Have you been in pain most of your life?" the scholar asked.

"No, except for today" the man answered.

"For 25 years, you have enjoyed good health, and you never tie the bandage of thankfulness, and for one night headache, that you tie the bandage of complaint
